AN UNPRESSED WASHER is so soft that the action of the wheel very soon compresses it, so it no longer fills the space between the collar and the box, causing the wheel to rattle.

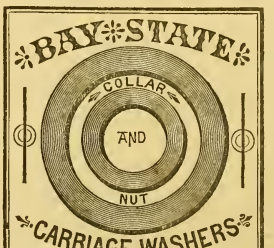

My Block pressed Top-Prop Washers are being universally adopted, as they are very firm, and do not require painting.

My Prop Block Washers are dyed black, pressed very solid, and have an imitation stitch. They are much better liked by carriage makers, than those made from rubber, and cost less than one half as much.

Patent Winker Braces for bridles, having same appearance as ordinary ones, yet, so made as to hold the Blinds or Winkers just as near or far from the horses eyes as desired, and never become soft and cease to hold the Blinds in their proper position.

Metallic Rein Supporters, that screw on to Neck Strap to Breast Plate Harness. The Reins passing through the same cannot drop down and catch on the shafts. An article that has long been needed.

MADE OF BEST SOLE LEATHER.

PATENT MACHINE-PRESSED.

To avoid mistakes in filling orders, it is *always* necessary to give both inside and outside diameter. See sizes most used on the other side.

WOOD POINT

BROWN STONE COMPANY,

The Stone from these quarries is of a rich dark brown—very uniform in color—and unsurpassed for strength and durability. It is meeting with great favor—as our orders in New York will testify—amounting to over five thousand tons this spring, up to April 1st. We would refer to "The Bristol," constructed of stone from these quarries, on the corner of Boylston and Clarendon streets, Boston. We are prepared to furnish this stone in any quantities.

MANUFACTURERS OF EGYPTIAN

TE-NEX-INE!

This new Adhesive Material is a *Mucilage, Liquid Glue, and Cement Combined*, and possesses greater adhesive qualities than any other known substance.

It contains no injurious ingredient; is entirely odorless, and is always ready for use; no heat being required, as with Glue or Cement.

As a MUCILAGE its action is quicker, is not affected by moisture, and does not wrinkle the paper, as in the case of Mucilage now in general use.

As a CEMENT in repairing **Crockery and Glassware**, and broken Ornaments of all kinds, it has *no equal*, as it will stand the test of boiling water as no other Cement will.

As a GLUE it is not affected by moisture, and possesses greater strength than the finest French Glue.

We also prepare a quality for labeling on **Glass & Tin**, which will hold the labels *permanently*. It is water-proof, and is not affected by changes of temperature.

Manufacturers and others using an Adhesive of any kind, are invited to examine and prove the truthfulness of the above statements.

R. H. EDDY,
SOLICITOR OF PATENTS,

No. 76 State Street, opposite Kilby, BOSTON.

After an extensive practice of upward of thirty years, continues to secure patents in the United States; also, in Great Britain, France, and other foreign countries. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

No agency in the United States possesses superior facilities for obtaining patents or ascertaining the patentability of inventions. *R. H. EDDY.*

TESTIMONIALS:

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person more *capable and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents."

BOSTON, October 19, 1870. R. H. EDDY, Esq.—Dear Sir, you procured for me, in 1840, I think, my first patent. Since then, you have acted for and advised me in hundreds of cases, and procured many patents, re-issues, and extensions, all with such ability and promptitude (always giving your personal attention), that, notwithstanding I have occasionally employed those among the best agencies in New York, Philadelphia, and Washington, I still give you almost the whole of my business in your line; and advise those who ask me to recommend a good solicitor to employ you. Grateful for your efficient services in the past, and your uniform courteous bearing toward me, I remain, Yours truly, GEORGE DRAPER.

BRETT'S
EUREKA SALVE!
PURELY VEGETABLE.

This remarkable cleansing and healing agent having been used by the discoverer and his family, employes, friends, and neighbors for many years, in numberless cases, with the most satisfactory results, we feel the utmost confidence in offering it to the public, (which we do by the earnest solicitations of those who have used it), for the immediate **Relief and Permanent Cure** of BURNS, SCALDS, BRUISES, CUTS, **CATARRH,** FELONS, CORNS, FROZEN HANDS AND FEET, CHILBLAINS, OLD SORES, SORE THROATS, DIPTHERIA, PNEUMONIA, SCARLET FEVER, PILES, BAD COLDS IN THE HEAD, RHEUMATIC AND NEURALGIC PAINS; also, PAINS IN THE BACK, SIDE, AND BREAST, NUMBNESS OF LIMBS, COLD FEET, CHAPPED HANDS, SORE EYES, VARICOSE VEINS, SORE LIPS, HAY FEVER, BOWEL COMPLAINT, DYSPEPSIA, AND ULCERS. It produces circulation, and prevents and removes inflammation, and stagnation of fluids, and maturation in sores, which is the cause of pain and soreness; and also prevents mortification from setting in, if applied in season, used freely, and renewed often.

Every one his own Artist. A Wonderful Invention, patented 1877.

PEARL'S ART CRAIO.

Pictures drawn mechanically with the **utmost accuracy** by persons having no previous knowledge of art. It requires no talent or study to draw by this method. A child, eight years of age, can learn to draw in from one to three lessons.

Landscapes Sketched Directly From Nature.

A little practice will enable any one to draw Portraits in Crayon from Photographs, Daguerreotypes, etc., and all pictures to any size under three feet.

SILHOUETTES DRAWN FROM LIFE IN TWO MINUTES.

This great art embraces all kinds of drawing pertaining to the old methods, i.e. Landscape, Portrait, Architectural, Mechanical, etc. Every one who learns the art is delighted, and commends this fascinating accomplishment. **Over two thousand three hundred** pupils in **two years; over seven hundred pupils in Boston in eight months.** Mr. Eugene Pearl, the author of this method, teaches personally, and will feel gratified by any number who may visit his studio and examine drawings by pupils after only one lesson, and autograph letters from Artists, Architects, Teachers, Engravers and Citizens in the eastern, western and southern cities, indorsing this art. Satisfactory success to pupils or no charge for tuition. Appointments must be secured in advance. Terms moderate.

Hours, 9.30 A.M. to 6 P.M.

BOSTON STUDIO in the Studio bldg., 110 Tremont Street. NEW YORK STUDIO, Union Square after October 1st.

☞All correspondence must be sent to Eugene Pearl, Studio bldg., Boston.

SALEM LEAD COMPANY,

Corroders and Grinders of the Best

PURE WHITE LEAD

Ever Made in this Country.

Their Mills are under the superintendence of MR. D. G. BACHELDER, whose reputation as a lead manufacturer has long since been well established throughout New England and New York, and his White Lead

STANDS UNRIVALED IN THIS COUNTRY.

The Salem Lead Company's Lead can be found for sale by most of the first-class drug, paint, or hardware dealers throughout New England.

Its Uniform Purity and Brilliant Whiteness

are fully appreciated wherever it is used; and these qualities in an eminent degree, are achieving for it a success and demand hitherto unprecedented in the paint trade.

This White Lead, owing to the great care used in the selection of the material from which it is made, and also in the grinding of the same, is said to *wear longer and handsomer*, and to present a harder surface to the action of the weather, than most of the leads now in use.

ITS PERFECT PURITY IS WARRANTED IN ALL CASES.

CAUTION.—In consequence of the great demand for the *Salem Lead Company's Pure White Lead*, some grinders of cheap material have sold to the trade adulterated articles, incorporating into the brand upon the packages the word "*Salem*," in various ways. In some of them but little lead is found, and they are all of them calculated to injure the pure and genuine article, the packages of which are branded, "**Salem Lead Company, Pure White Lead, Salem, Mass.**"

LEAD PIPE,

Of any size or thickness required, made from the very best Pig Lead, and warranted satisfactory.

A New Article of LEAD TAPE AND SHEET LEAD, made by this Company only,

of 2½ and 3 pounds to the square foot, on reels, in one continuous length, and made in widths, and for purposes, as follows: ⅝ in. wide, for weighting window shade sticks; 2½ in., 3 in., and 4 in. wide, for carpenters and builders; 6 in., 7 in., and 8 in. wide, for mason work and general purposes; also, 8½ in. wide, and 5 lbs. and 6 lbs. to the square foot, for plumbers' use.

The convenience and economy of this form of Sheet Lead has already brought it into universal favor with all consumers, wherever introduced.

Although we intend to fill all orders for White Lead and Lead Pipe, promptly, we have sometimes found, in the early spring and fall, that it was impossible to keep a stock on hand, so large was the demand. Our patrons are therefore requested to *send their orders early*, or before they are entirely out, to avoid inconvenience or delay in the delivery of the same. Address

SPECIAL NOTICE.

The fact that an alarm box is located near their residence, and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire, should be a matter of common education. The Board of Fire Commissioners recommend to all persons who may see this notice, that they make the necessary inquiries to enable them in case of need, either to get the key and pull the box, or to direct others to do so. *Time* saved in this way may sometimes prevent a conflagration.

In case of Fire, follow these

DIRECTIONS.

Get the key to the nearest box to the fire.

Open the box—pull the hook all the way down ONCE, and let go.

Wait *one full minute* for the sound of the bells.

If you hear no sound *pull again*, and the *third* time if you get no sound.

If you fail the third time, go to the next nearest box and do the same there,—but do not touch any other box if the nearest one gives the alarm.

After giving the alarm, remain awhile if *possible* by the box, so as to direct the firemen to the fire.

SECOND ALARMS.—No person will give alarms for the same fire (after the first alarm has been given), without an order from an Engineer, and the person so ordered will be *sure* to go to the *same box* from which the first alarm was given, and report the same to the Chief Engineer. *If, however*, a fire breaks out while another is burning in a different section of the City, a *second* alarm can be given by a Police Officer without waiting for an order from an Engineer.

CAUTIONS TO PERSONS HOLDING SIGNAL KEYS.

1. Never open the box or touch the apparatus except in case of fire.
2. Never sound the alarm for a fire seen at a distance.
3. Be reasonably sure there is a fire before sounding the alarm.
4. Be sure your box is locked before leaving it.
5. Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.
6. If you remove from your house or place of business, return the key to the Fire Alarm Office without delay.
